

Value Formulary

EFFECTIVE JULY 1, 2020

Questions or additional info:

- ▶ Contact Member Services at **866.516.3121**
- ▶ Visit [optumrx.com](https://www.optumrx.com)

At CastiaRx, we want to help you understand your medication options

A wide variety of drugs is included on the drug formulary (also known as a Preferred Drug List or PDL). When choosing medications, we encourage you and your doctor to choose the more cost-effective option available, which helps hold down costs for you and the plan.

For easy reference, this formulary is an overview of the most commonly prescribed medications and is detailed in the following sections:

Preferred medications 3

This is a list of drugs covered by your plan. When multiple drugs are equally effective in treating the same condition, the most cost-effective drug(s) will be listed on the Preferred Medication List. You will generally save money by choosing a drug from the **preferred list**.

Excluded medications 15

This list of drugs is **not covered** by your plan. When multiple drugs are equally effective in treating the same condition, drugs that cost more without providing additional clinical value are excluded from benefit coverage. If a drug you are taking is on the **excluded list**, we encourage you to speak with your doctor to help you find an alternative medication that will treat your condition and qualify for benefit coverage.

Specialty medications 17

This list of drugs may be covered by your plan. Specialty medications treat rare or complex conditions and are typically higher-cost medications. These medications **require a prior authorization** before coverage is determined.

This formulary includes commonly prescribed drugs, but is not a comprehensive list of all medications. If you don't see the medication you are taking listed here, visit optumrx.com to review your pharmacy coverage.

- ▶ Visit optumrx.com
- ▶ Choose **Drug Search**
- ▶ Type in the name of the drug

PLEASE NOTE: Brand drugs may move to non-preferred status if a generic version becomes available during the year. Not all the drugs listed are covered by all prescription plans. Login to optumrx.com to see if specific drugs are covered by your plan. For specific questions about your coverage, please call the phone number printed on your member ID card.

Preferred Medications

Save money by choosing a **preferred drug**. The list below includes commonly prescribed **preferred drugs**. If you don't see your drug listed, check optumrx.com, for a complete list of all drugs, including preferred alternatives. A list of excluded drugs is also included in this formulary.

Excluded Medications

The following list of drugs is excluded from coverage. When multiple drugs are equally effective in treating the same condition, drugs that have more cost-effective alternatives are excluded from coverage. If you are taking a drug on the **excluded list**, we encourage you to speak with your doctor to help you find a drug that is covered under your pharmacy benefit.

Specialty Medications

Specialty medications treat rare or complex conditions and are typically higher-cost medications. These medications require a prior authorization before coverage is determined. CastiaRx, powered by Diplomat, can provide most specialty medications along with helpful programs and services.

Not all specialty medications are listed in the formulary and coverage may vary by plan. For specific questions about your plan's coverage, please call Member Services at 866.516.3121.
